Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

This should not be. We have a phone for my daughter which she only uses in emergencies. We also have one for my parents who are in their 70's. They hate using that cell phone and only took it because we insisted. We feel that it would be GROSSLY unfair to make us pay the same as someone who is using their mega minutes. Please rethink this and come up with a better solution.
